azimut Magellano 66

2 390 000 € TASSE ESCLUSE

Descrizione

The Magellano 66 is the perfect expression of the entire Magellano Collection, with elegant lines and powerful hull, characterized by bulwarks that rise to protect the side walkways. The extended hull windows recall the nautical tradition with their rounded shape, while the wooden louvers positively punctuate the superstructure's aft end giving an elegant and unique touch.

The flybridge is a wide, panoramic deck under the sun, with an external helm adjacent the dinette. In the cockpit, the extended sofa wraps around a vast dining table. There is room for all the guests to gather on this sheltered yet open-air lookout, and the aft-most backrest can be stowed away to reveal a glass parapet. The infinity terrace effect breaks down the barriers to a clear view of the waves.

The flush main deck welcomes you home to the sea, into a glass house that selects the essentials of sophisticated life. The interior design is characterized by coziness and elegance. The storage spaces are studied with an awareness of their essential role, where and how much they are needed. The main deck layout already separates crew and guest flows, even as a unique open space, protecting the working areas from disturbances.

The supremely cozy master suite showcases modern design, such as the pattern of slatted wood behind the head of the bed. A vanity desk port, well served by convenient storage, takes full advantage of the exceptional hull-side windows. On the starboard side, there is a seating area.
