AN AMAZING CRUISE EXPERIENCE.....

Nautor Swan is renowned in the world of sailing for its high-performance racing yachts and performance cruising Swans. Today, Nautor is expanding its brand into the motor yacht segment with the introduction of the Swan Shadow.

Born from Leonardo Ferragamo's passion for the marine world, the Swan Shadow broadens the range of vessels offered by the Finnish yard, perfectly aligned with the core elements of its brand DNA: Performance, Quality, Elegance.

These core elements, along with the values of design and innovation deeply rooted in Nautor's heritage, are also fundamental to the concept of Swan Shadow, destined to become a timeless icon.

This new model completes the Nautor Swan portfolio and product lineup with a versatile motoryacht concept designed to meet the needs of Nautor's customers, capable of achieving speeds up to 55 knots.

"For so many years we've been thinking about launching a power boat, but we always resisted this temptation until we really felt we had something really special and unique to present. And this is what is happening with Swan Shadow. She is full of the ingredients we believe in, and we are confident that we are going to make an important statement in the power yacht segment". Leonardo Ferragamo, President.
