This Azimut Grande 30 is not a standard production yacht. Unlike many comparable units, her design prioritizes real livability and onboard volume over cabin count, resulting in a unique layout that challenges market conventions.

Key Investment Highlights: Owner-Centric Philosophy: Designed for an owner who personally experiences the yacht, moving away from "charter-oriented" logic or purely numerical metrics.

The Luxury of Space: By intentionally reducing the number of guest cabins, Silvia unlocks a level of interior volume and fluidity rarely seen in this segment.

Split-Level Master Suite: The crown jewel of the design—a private owner's domain developed across two levels, offering a truly residential feel and unmatched privacy.

Specific Market Positioning: Silvia occupies a refined niche, appealing to discerning buyers who value the quality of living environments and genuine comfort over a simple cabin count.

A Bespoke Proposition: Delivered in 2018 with direct ties to the Azimut Benetti Group, she reflects a superior level of build quality, custom detailing, and technical specification (including stabilizers, Jacuzzi, and high-end AV/IT systems).

Questo Azimut Grande 30 non è un prodotto di serie, ma un'imbarcazione concepita per chi mette la qualità della vita a bordo
