

VENDITA NUOVA

azimut Magellano 25 metri

PREZZO SU RICHIESTA

Descrizione

Designed for endless voyages suspended between the sky and the sea, the Magellano 25M was born to reclaim the element of time.

A work of art of surprising fascination, her exterior lines transcend the trends with their enduring and powerful presence. Inspiring interiors, illuminated by natural light that openly flows through, embody the marine allure in attractive nuances and softened geometries, permeating the vessel with enchantingness from stern to bow.

The exteriors of the Magellano 25M have been designed by Ken Freivokh. The vision that guided his design of the lines of the boat was wonderfully simple: to create an object of timeless, exquisite beauty, immune to passing fads and trends.

A superstructure entirely in glass, conceived to recreate the idea of a penthouse overlooking the sea, is the central element around which the entire design revolves.

Customised teak louvres on either side of the aft area of the deckhouse add an indefinable personality to the boat's silhouette. An elegant spiral staircase leads to the flybridge, where the hard top is supported by a minimal central mast, while the near-vertical prow reminds us of the Magellano's outstanding credentials when it comes to seaworthiness.

The versatile bow area can be enjoyed whilst stretched out on sunbeds or as a lounge zone, depending on the time of day.

The innovative cockpit design features a retractable panel that can be lowered to leave a transparent parapet,
